

Winthrop Wesley Interns

Hi I'm Erica Oliveira, and I will be a junior social work major at Winthrop University this fall. I am elated to be one of the Winthrop Wesley Foundation interns for the coming school year. I have been apart of the Wesley Foundation for more than 4 years now, and I am sure that this will be the best yet. When I'm not working for Wesley in the garden (which I am a novice at) or planning outreach, you can often find me at Lell's having some Chai or off on an adventure with other amazing Wesley students. I am addicted to Facebook and my cell phone, but that means that I am always easy to contact to meet up for lunch or ice cream for any reason or no reason at all. Wesley is a HUGE part of my life, and I can't wait to watch the exciting things that we have planned for the year come to fruition.

Hello! I'm Adrienne Chlumsky and I am a senior special education major at Winthrop. I have worked for the past two years as the student assistant at The Wesley Foundation planning and organizing events and pitching in and working on all sorts of projects. I'm excited about working as an intern this year at Wesley and continuing to facilitate and do office work and errands while also focusing on evangelism, worship, and hospitality. I know this is going to be a great year and I can't wait for it to begin!
